

The screenshot displays the Microsoft SQL Server Enterprise Manager interface. The left pane shows the 'Object Explorer' with the 'Family_Practice' database selected. The right pane shows a query window with the following SQL query:

```
1 SELECT TABLE_NAME, CONSTRAINT_NAME, CONSTRAINT_TYPE
2 FROM INFORMATION_SCHEMA.TABLE_CONSTRAINTS
3
4 ORDER BY TABLE_NAME
```

The query results are displayed in a table with the following columns: TABLE_NAME, CONSTRAINT_NAME, and CONSTRAINT_TYPE. The results are as follows:

TABLE_NAME	CONSTRAINT_NAME	CONSTRAINT_TYPE
Invoices	FK_TransID_1	FOREIGN KEY
Invoices	FK_PatID_1	FOREIGN KEY
Invoices	FK_ProdID_1	FOREIGN KEY
Invoices	PK_InvID	PRIMARY KEY
Patients	PK_PatID	PRIMARY KEY
Payments	PK_PayID	PRIMARY KEY
Payments	FK_PatID_2	FOREIGN KEY
Payments	FK_TransID_2	FOREIGN KEY
Payments	FK_InvID_2	FOREIGN KEY
Products	PK_ProdID	PRIMARY KEY
Transactions	PK_TransID	PRIMARY KEY
Transactions	FK_PatID_3	FOREIGN KEY
Transactions	FK_ProdID_2	FOREIGN KEY
Vendor_Orders	FK_VendorID_1	FOREIGN KEY
Vendor_Orders	FK_ProdID_3	FOREIGN KEY
Vendor_Orders	PK_VendorOrdID	PRIMARY KEY
Vendors	PK_VendorID	PRIMARY KEY

The status bar at the bottom indicates 'Query executed successfully.'
